Assembly instructions

For assembly assistance, call 888-508-3725 or email support@fully.com
Use the two included screws to install the WireTamer(s) to the underside of your desk. Jarvis desk tops are not predrilled for WireTamers as placement is up to personal wire taming needs.

We do recommend placing them parallel to the back edge of your desk top appropriately spaced to conceal your wires and guide them to where you will be plugging them in.

If you ordered your Wiretamers with a Jarvis desk, your Wiretamers are currently slid onto the legs in the Jarvis frame box. Be sure to remove them before building your new desk!

Installation is easiest with the desk upside down.
